EVENING'S PRESENTERS:

JOHN SEYRAK

go sustainable energy, llc

Go Sustainable Energy promotes sustainable material and energy use. Ideally, closed material loops would be powered by renewable energy through ultra energy-efficient processes. We assist companies in making economical, sustainable first steps toward this vision.

Go Sustainable Energy engineers are energy efficiency experts, and work with clients to identify the energy, material and cost savings opportunities. We are located in Columbus, OH, and we serve the Midwest and surrounding areas.

YP GREEN ACTION PANEL

yp program volunteers

When posed the question... "What steps can you implement to "green" your lifestyle? The possibilities can seem a little daunting. When asked the same question this panel of YP volunteers answered the call to volunteer and put into place a few simple, easy steps to lessen their personal carbon footprint as well as how that of their businesses. Maybe a few of these easy to implement actions could take place in YOUR own business.
